Home Inventory Checklist and Worksheet

A home inventory is a list of what you own, with photos and rough values. It can help you choose the right amount of coverage and makes a claim much easier after a fire, theft, or storm. Print the worksheet and go one room at a time.

Quick takeaway

- A phone video of every room is a great start.
- Note brand, model, serial number, and rough value for bigger items.
- Store your inventory somewhere safe outside the home, like cloud storage.

Getting started

- ☐ Pick one room to start. Most people finish a room in 15 to 30 minutes.
- ☐ Take a slow video, opening closets, cabinets, and drawers.
- ☐ Photograph serial numbers and labels on electronics and appliances.
- ☐ Save receipts or order confirmations for big purchases.
- ☐ Upload everything to cloud storage or email it to yourself.

Room by room

- ☐ Living room: TV, furniture, decor, electronics.
- ☐ Kitchen: appliances, cookware, dishes.
- ☐ Bedrooms: furniture, clothing, shoes, jewelry.
- ☐ Home office: computers, printers, documents.
- ☐ Garage and shed: tools, bikes, lawn equipment, sporting goods.
- ☐ Basement or attic: stored items, holiday decorations.

Valuables to note separately

- ☐ Jewelry and watches.
- ☐ Firearms.
- ☐ Collectibles, art, and instruments.
- ☐ Anything that may exceed your policy's special limits. Ask whether to schedule it.

Keep it current

- ☐ Update after holidays, birthdays, or big purchases.

☐ Review once a year at renewal.
